OBJECTIVE

DevOps Engineer with hands-on experience in full-stack development, cloud technologies, and automation. Seeking to leverage expertise in AWS, Docker, Kubernetes, and CI/CD tools to build and maintain scalable, reliable infrastructure solutions.

EDUCATION

Cairo University - Faculty of Engineering

Bachelor's degree in System and Biomedical Engineering; GPA: 3.3

Cairo, Egypt

2021 – 2025

Digital Egypt Pioneers Initiative (DEPI) - DevOps Track

Ministry of Communications and Information Technology (MCIT)

2025

TECHNICAL SKILLS

Cloud & DevOps: AWS, Docker, Kubernetes, Jenkins, Ansible, Nginx, Apache, Git, GitHub

Backend: Node.js, Express.js, MongoDB, PostgreSQL, Socket.io, Jest

Frontend: React.js, Redux, Tailwind CSS, Material UI

Programming & Other: Linux, Python, C++, JavaScript, OOP, Pandas, NumPy

Areas of Interest: DevOps, Cloud Computing, System Automation, CI/CD, Web Development

PROJECTS

Job Tracker - Containerized Application – GitHub

2025

DevOps Project

Docker, Docker Compose, Nginx

A simple job tracking application containerized for streamlined deployment. Containerized front-end and back-end services using Docker and Docker Compose for consistency. Utilized Nginx as a reverse proxy to serve the application. Engineered the application to be stateless, relying on browser local storage for data persistence.

Active Pulse - Containerized Application – GitHub

2025

DevOps Project

Docker, Nginx, Multi-stage Build

An e-commerce front-end application packaged into a lightweight container. Created a Docker image using a multi-stage build to ensure a minimal, production-ready image. Configured Nginx to efficiently serve the static front-end content. Designed for browser-based storage, simplifying infrastructure requirements.

Learnova – GitHub

In Progress

Educational Platform

React.js, Node.js, MongoDB

Developed a scalable web application to facilitate online learning with full-featured LMS capabilities. Integrated features for course management, quizzes, and user progress tracking. Utilized modern web technologies for a responsive and engaging user experience across all devices.

Sociopedia – GitHub

Feb 2024

Social Media Platform

Node.js, Express.js, React.js, Material-UI, MongoDB

Built dynamic full-stack social media platform with comprehensive user interaction features. Implemented JWT-based authentication for secure user access and utilized Redux for efficient state management. Developed responsive design with Material-UI components for optimal user experience.

ChatEase – GitHub

Aug 2024

Real-Time Chat Application

React, Node.js, Socket.io, MongoDB

Full-featured messaging platform with real-time capabilities using Socket.io for instant communication. Implemented JWT-based authentication, real-time messaging, and media upload functionality. Created responsive UI with Tailwind CSS ensuring seamless communication experience.

EXPERIENCE & PARTICIPATIONS

Backend Mentor

Jan 2025 – Apr 2025

(EMBS) Student Branch Chapter at Cairo University

Mentored students in backend development technologies including Node.js and Express.js

Conducted workshops and hands-on sessions to enhance practical coding skills

CERTIFICATIONS

- Back End Development and APIs
- JavaScript Algorithms and Data Structures
- SQL
- REST API
